

Our Professional Services provide a catalyst for change within organisations, leading to enhanced performance, improved revenue streams and the successful achievement of both short-term and long-term goals.

Professional Services

from Symbiotic Projects

At SPL, we pride ourselves on providing an impressively wide range of high-quality Professional Services to a client base that extends throughout the UK, Europe and world-wide. We believe that we are unique in our market sector in that we can offer clients a comprehensive portfolio of Professional Services that is entirely comparable with those offered by larger organisations; however ours is a more dynamic and cost-effective alternative based on our greater mobility and flexibility. Proactive and quick to respond to client requests, we offer a multi-faceted approach that focuses closely on using industry-recognised and respected best practices to achieve optimum results.

People – our greatest asset

Our Professional Services also place great emphasis on the quality of our people, and we only employ those with extensive experience and expertise in their particular specialisms. Our Board takes the lead in demonstrating exceptional Professional Services skills, and each individual has at least 25 years' experience at senior level, adding up to a pool of resources covering, for example:

- Line Management
- Out/in-Sourcing
- Global Programme Delivery
- Bid Management

The Professional Services capabilities of our Board are also reflected in those of our staff, who work individually and as a team to achieve optimum performance results for our clients.

A wide range of capabilities

Our Professional Services capabilities cover:

- Infrastructure
- Communication
- Operations
- Business Continuity
- Information
- Finance
- Risk Management
- Technology

Using our expertise in these diverse areas, we aim to be source of change for our clients, acting as a stimulus for improving business efficiency and productivity so as to bring about bottom-line improvements in revenue and profitability. We also employ rigorous financial management and robust cost-saving methodologies to every project and business, further underlining our focus on measurable, tangible business improvement.
